

CRISTAL EXTRACTS

RUMIS

Crystals radiate the most pure and bright cosmic colours offered by nature. Their energy concentration, chemical composition and cosmic ray emission have direct action upon living beings (on both physical and subtle bodies) and, therefore, can compensate what the organism lacks and wears off. **RUMIS CRYSTAL EXTRACTS** manufacture is inspired by the Ayurvedic science. They have been carefully selected according to their chemical composition as well as their colour ray emission in order to cover a wide field of applications. Unlike other essences, they can be taken with food and drinks. (Bottle Spanish name appears in brackets next to the English one).
